August 15th, and reopen on August 22d, 1905.
ALFRED ROMER, Treasurer.

FINANCIAL NOTES.

Daniel G. Reid of the Rock Island has been elected a director of the Continental Fire Ligurance Company.

Upon the return of Col. W. C. Greene from Maxico vesterday the directors of the Greene Consolidated Copper Company declared the regular gi-monthly 4 per cent. dividend. Col. Greene said that all was harmony in his companies.

FINANCIAL AND COMMERCIAL.

THU ISDAY, Aug. 10. The Government crop report for August published for the first time to-day in the middle instead of at the close of a business day, exceeded all previous bright anticipations as to its tenor. With the single exception of spring wheat, in which a very alight falling off in condition was reported, an improvement for the month was shown in the state of all the leading grain staples, while the report derived peculiar importance from the fact that the season of the year now makes it possible to form a fairly accurate notion as to what the final outcome of the harvest will be. As the amount of the winter wheat harvest is now almost definitely established and the spring wheat harvest is well under way, to-day's calculation of a combined wheat crop, in round numbers 710,000,000 bushels; indicates that the second largest wheat crop in the history of the country has been gathered, and it is not impossible that even the one higher record of the past may be surpassed. The planted area and present condition of the corn crop indicates a yield here of 2,700,000,-000 bushels, nearly 300,000,000 bushels greater than last year and far and away the greatest crop of corn in our country's history. The corn crop is not yet absolutely free from two possible perils, hot winds and early frosts; but the usual period of danger from the first named cause is in the month of July and is considered by experts to be now wellnigh over, while widespread damage to the corn crop from frost is recognized as being more or less of a bugaboo. As it is admitted that the hay crop this year is enormous and that there are bountiful yields of oats, rye and all the minor grains, the statement must pass unchallenged that the promise of the hour to the American farmer is for the best crops he has ever raised, selling at exceedingly remunerative prices.

The effect produced by all this in the markets to-day was on the produce exchanges a sharp fall in the price of wheat, despite the receipt of news corroborating the recent reports of damage to the foreign harvests, and in the stock market a decided accentuation of the general market activity and the movement toward a more elevated level of the high priced stocks. The sensational feature here was of course the advance of Delaware and Hudson stock from its yesterday afternoon price of 2041/4 to 224, but Illinois Central rose from 1741/2 to 180%; Central Railroad of New Jersey from 211 to 220, New York Central from 1481/2 to 1521/4; New York, New Haven and Hartford from 2021/2 to 2101/2; General Electric from 1801/2 to 1821/4 and St. Paul common from 181% to 183%. Delaware and Lackawanna stock also advanced 191/2 points and Louisville and Nashville Atchison, New York, Ontario and Western Reading, Wisconsin Central preferred and other stocks also displayed marked strength; closing for the most part nearly at the highest. The volume of transactions for the day rose to the largest total recorded in many weeks. The advances in these stocks naturally started various "explanations" for the rise. Many of these had not the merit of novelty, including in the case of Delaware and Hudson the familiar rumon that the stock was likely to be placed at the end of the year on a largely advanced dividend basis and that its control was to pass into the hands of the New York Central, New York and New Haven or Pennsylvania companies. Another story was to the effect that the Delaware and Lackawanna company had acquired or was about to acquire a dominant interest in the Delaware and Hudson management. The particular reason favored by gossip for the movement in Illinois Central was a further accumulation of its shares by the Union Pacific Railway Company for purposes of control. It is fairly well known that a large block of Illinois Central stock is already held with this end in view. Whatever be the truth in any of these tales, and there is nothing improbable in any of them, the one fact that has recently made itself felt in the stock market is that there has been large investment in stocks of the highest grade by very rich men. There may be "special" the general conclusion to be drawn from the buying is nevertheless that the most powerful and sagacious financial interests in our country believe that business conditions and prospects are such as to justify

ference at Portsmouth. But this depres sion was short lived. All foreign news was of a sort calculated to help the market. Money was in better supply in London the course of sterling in Paris indicated the cessation of the demand for gold there, while the production of gold at the Rand in July was officially announced as being 419.505 ounces, an extremely large figure The local banks in their transactions with the Sub-Treasury thus far this week have lost only \$707,000, against five times that sum this time a week ago, and exchange on this center in Chicago has fallen to 15 cents discount from 35 cents discount, the figure of a few days since. This points to the probability of a more favorable bank statement on Saturday than was made last statement on Saturday than was made last week. As bearing upon the money situation the fact is not a little interesting that a large Wall Street commission house today made a heavy loan on miscellaneous collateral running into the middle of Janary at 3½ per cent. This does not testify to any fear on the part of our money lending institutions of a money stringency later in the year, and indeed no such fear is felt by any one. is felt by any one.

Cotton Lower-Further Rains-Liverpool Lower-Hears Hammer-Selling on Stop Orders-Commission Houses Buy the Decine-train Advances. Then Heacts The Government Report -- Coffee Easy.

THURSDAY, Aug. 10 .- COTTON, -Spot cotton declined 10 points. Middling, 10.75c., against 10.65c. last year: New Orleans and Gulf, 11c., against 10.00c. Delivered on contracts, 300 bales. Southern spot markets were quiet and steady.

The receipts were as follows: | Open High Low Clo Las. | Open High Low Las. | Open High Las. | Open High Low Las. | Open High Las. | Open Hi

Putures here declined 13 to 15 points, recovered 2 to 5 of the loss and closed steady with estimated sales of 250,000 bales. Prices as follows:

Messrs. Weld, Norden and Hentz were sellers.
Price and McFadden brokers sold. Gwathmey

bought,

Bally & Montgomery said: "Memphis and Natchez
reported greatly improved crop prospects, and a
few points in Texas were said to be doing better
as a result of the rains, but on the whole it is conaldered doubtful whether that State has benefited aldered doubtful whether that State has benefited much, for the reason that no great benefit was possible considering the condition of the plant. Furthermore, that the whole region west of the Missispipi has failed to make enough progress to remedy its previous poor condition is the view entertained by most conservative people. Short selling is being avoided, as it has been, and we feel that the sagging tendency now in progress will prove only temporary, to be followed by a higher market as we near the date for the next monthly bureau report, which by comparison cannot fail to be buildsh."

Oats were quiet on the spot. Sales, 10,000 bush. Natural white, 30 to 33 lbs., 33@34c. Corn was quiet on the spot. Sales, 160,000 bush. No. 2 mixed in elevator, 62c. Futures closed nominally unchanged to \(\frac{1}{2}\)c. lower. No sales. Closing prices Clo-The following shows the grain movement:

United States. . 80.2 91.0 87.5 77.1 88.8 Preliminary roturns indicate a winter wheat crop of about 624,600,000 bush., or an average of 14.3 bush. per acre. The following table gives the crops and the area for a series of years: Est. August, 1905. 22,728,000
Est. July, 1905. 22,728,000
Est. August, 1904. 27,083,000
